# Current Structure Of Mental Health Strategy 2020 – 2025 Delivery Plan

## Leeds Mental Health Partnership Board

Reduce Mental Health Inequalities

Improve C&YP Mental Health

Improve the flexibility, integration and compassionate response of services

Priority 1

Priority 2

Priority 3

Priority 4

Priority 5

Priority 6

Priority 7

Priority 8

Target mental health promotion and prevention within communities most at risk of poor mental health, suicide and self harm

Reduce over representation of people from Black, Asian and minority ethnic communities assessed and/or detained under the MH Act

Ensure education, training and employment is more accessible to people with mental health problems

Improve transition support and develop new mental health services for 14-25 year olds

Ensure all services recognise the impact that trauma or psychological and social adversity has on mental health

Ensure a timely access to mental health crisis services and support and ensure that people receive a compassionate response

Ensure older people are able to access information, support and mental health treatment that meets their needs

Improve the physical health of people with serious mental illness

Measures of success for each priority

# CCG Left Shift Blueprint

**Leeds Health and Wellbeing Strategy** – ‘all partners commitment to improving Health and wellbeing in its widest sense’

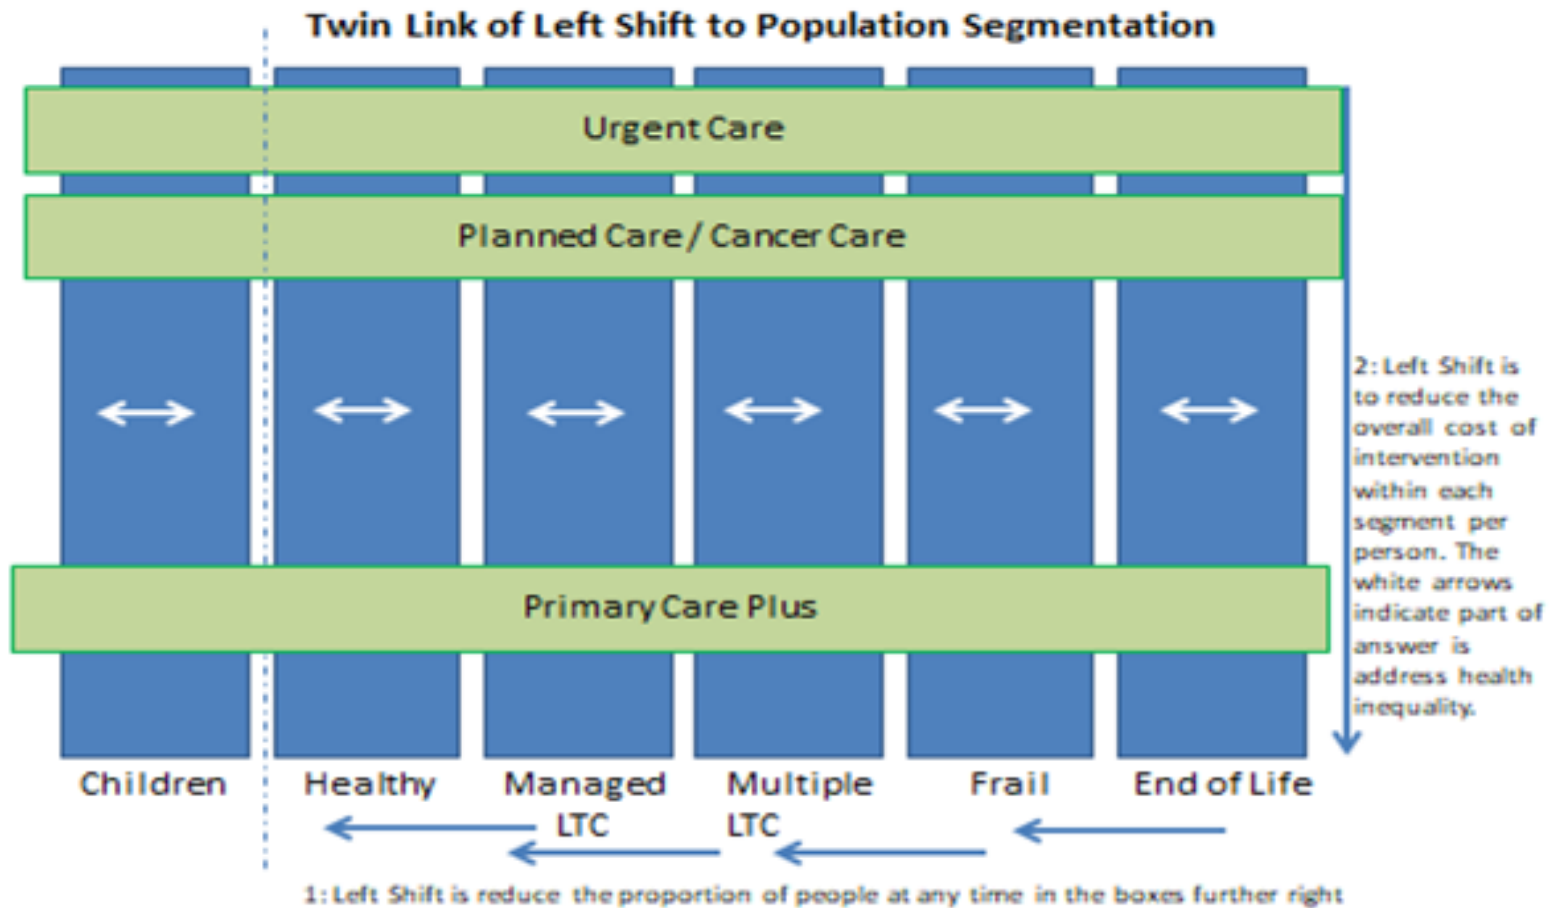

**Leeds Health and Care Plan** – ‘Health and Care Partners key transformation programmes’

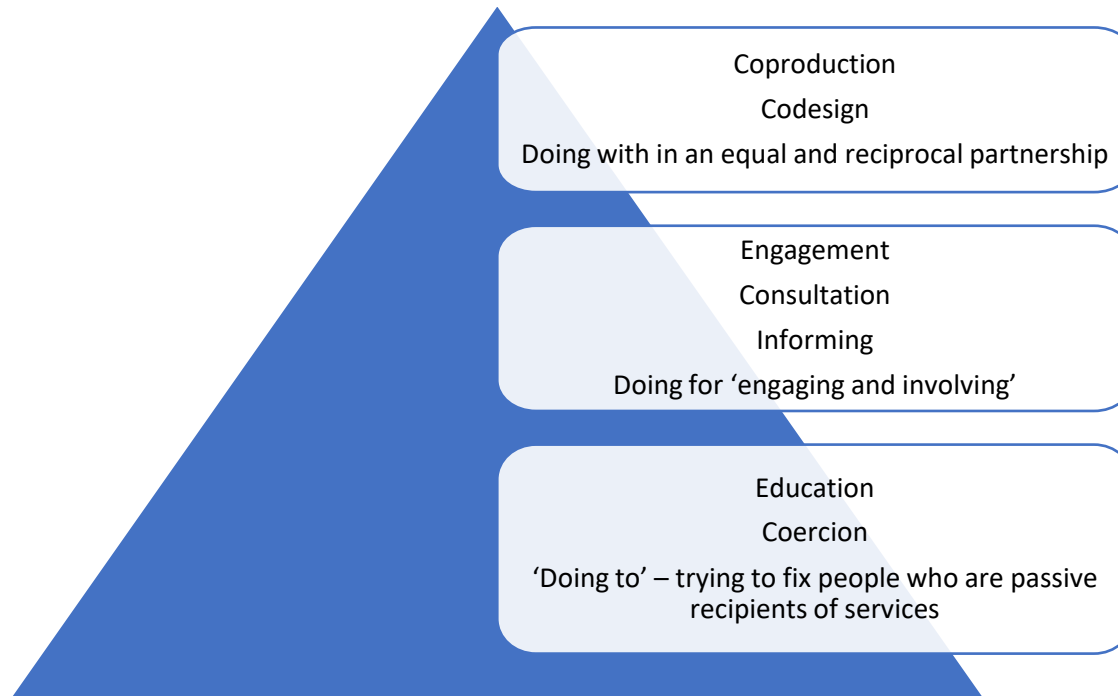

**Left Shift Blueprint** – ‘Leeds CCG’s 5 year investment plan’

# Left Shift approach

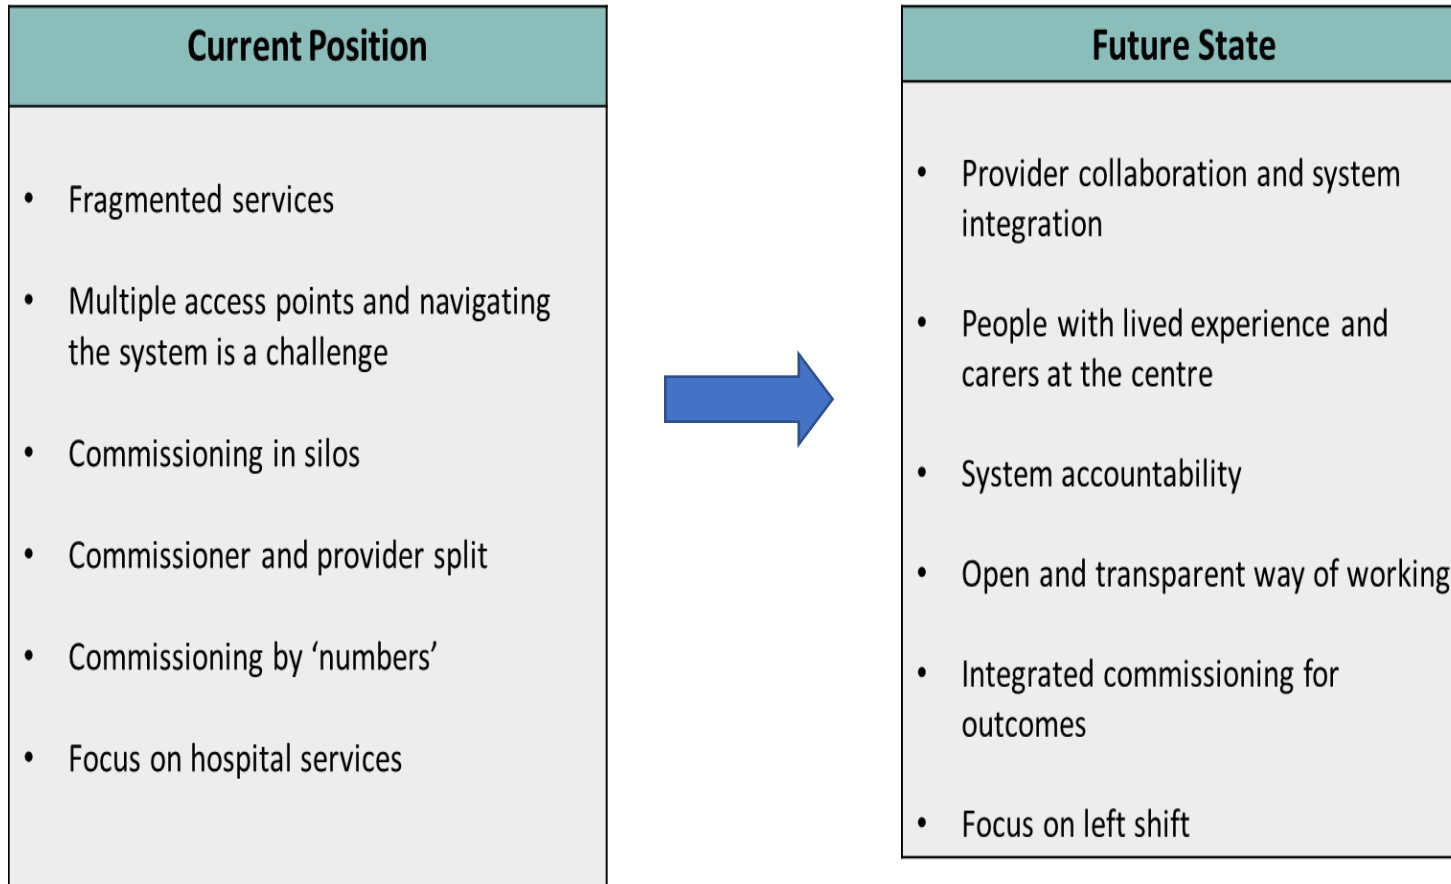

# What is the Leeds Mental Health Collaborative

- We are bringing together a ‘good enough’ group of key stakeholders with the aim of opening up a conversation about mental health involving everyone across the system in Leeds from those commissioning and providing support to those accessing support, to bring about change.
- With the goal to improve the mental health and wellbeing of people in Leeds and we think that we have the best chance of doing this by working together.
- Committed to coproduction as the framework for how we work together.

# Why have a collaborative?

The 'collaborative model has had proven success elsewhere

# What will the collaborative do?

Work together to practically make a change to wicked issues facing the system.

Leeds MH collaborative will inform and do service redesign with partners.

It will inform commissioning and future investment.

Truly represent the system – bringing many different perspectives together – peoples voices, third sector, providers, commissioners.

Triple aim of integration:

1. Integrate Mental Health and physical health services
2. Integrate Mental Health, social care and housing
3. Integrate Mental Health and VCS

Work aimed at progressing the mental health strategy priorities.

Reducing inequalities at the forefront.

Consider starting with Crisis / SPA / Front Door.

# Member Updates

We encourage you to use this time to discuss:

- Plans for reopening of face to face service
- Plans for a potential 2nd wave
- What support you might find useful at this time
- What's worked well for you during this time.
