

## Leeds Communities of Interest Current Issues

Week Commencing 3rd May 2021.

- A feeling that for those who have had both vaccines is that's it is now safe to get back to face to face activities
- Roadmaps for reopening/restarting are being developed - gauging from the interest of their communities
- How do we start "reviewing but no relaxing" and promote with service users/communities who feel the virus is no longer a threat?
- Some levels of vaccine hesitancy lowering - a feeling that it is now safer as more people have had it
- 

### Anticipated

- Building back better
- Need for outreach vaccinations - take to the streets

Looking back at the last update...

Week Commencing 20.04.2021

Reported anxiousness due to the lack of choice of or not knowing which vaccine people will have - reluctance to go out and have the vaccine.

Needle phobia

Under 35's worried about unemployment
